AGM 2020 - 2021 Annual Report Secretary / Vice President - Cordell McGuire

Following on from the 2019 year we found ourselves once again in managing another year of COVID-19.

Lockdowns within States, the closure of boarders combined with further restrictions within each State lead to us not being able to run events and this included Nationals 2021.

While this risk remains a more lenient approach has been taken in 2022, which has enabled the Association and Clubs to regain activities as we return to “normal” after nearly 3 years of restrictions.

During this time, it is important that we reflect on some of the achievements that this committee has made in keeping the 3D AAA as an Association operational and financial.

1. the experience and commitment of the Committee Members
2. the fact that we were the first to present our Insurers with formal Risk Management Matrix to manage through these troubling times which enabled us to maintain our Insurance Cover for our Clubs and members – an acknowledgement to our Insurers that worked alongside me in setting these things in place
3. we managed through these times extending benefits to our members, clubs and sponsors managing these in line with the financials we had – including the increase costs to the Association of business as usual – Insurance, Updating Targets and other matters covered in more detail in our Treasurers Report

As we progressively moved into 2022, we saw our membership grow as members returned to the sport and clubs were able to resume normal activities.

Today, we deal with a new generation of members and while the majority of members progressively grow with the direction the committee takes them to; to now reap the benefits of time and effort put into moving the Association forward.

There are those members who are not prepared to look at the growing trends, remain in the past causing and creating factions within the Association, targeting individuals on the committee with false allegations – example a single committee member makes decisions No

one committee member makes decisions we collectively review all decisions and then make the call on the action(s) to be taken.

As we now move into 2023, I acknowledge all the committee from our current President, to all the on the committee that have effectively given up their time to ensuring that our Association can and does provide opportunities for Clubs, Members and Sponsors to grow into the future with the Association.

I look forward to working with the new committee members elected at this AGM in 2022.

Regards,

Cordell McGuire.
Secretary 3DAAA
